

DRYER SP10 R

M

Machinery manufactured in stainless steel following the best quality standards, providing the best finish and resistance.

M

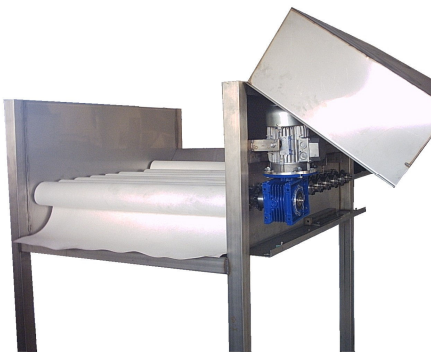

More than 80 types of machines for processing all types of vegetables such as potatoes, carrots and fruit, unique design. Do not settle for mere copies.

A

Aadjustable in length, width and height with numerous sizes and designs to always provide the right solution to your needs.

Q

Quality, design and efficiency in all our machines to extend their working life and make your work as easy as possible.

The **Martin Maq Dryer SP10R** is made of 10 axels specially designed to dry potatoes and similar products, with a capacity of up to 10 t/h.

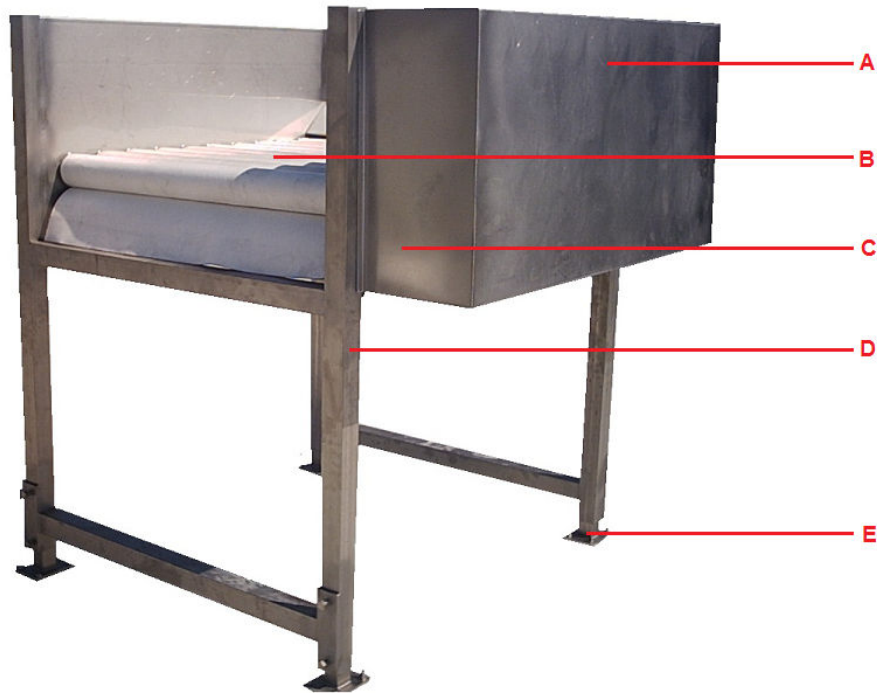

It is a very strong machine and very economical as a result of its simple design.

The function of this machine is to dry the product when leaving the washer or polisher to extend the product's shelf life.

Very low maintenance.

IMPORTANT PARTS OF THE MACHINE

A: Transmission system protected by a stainless steel cover.

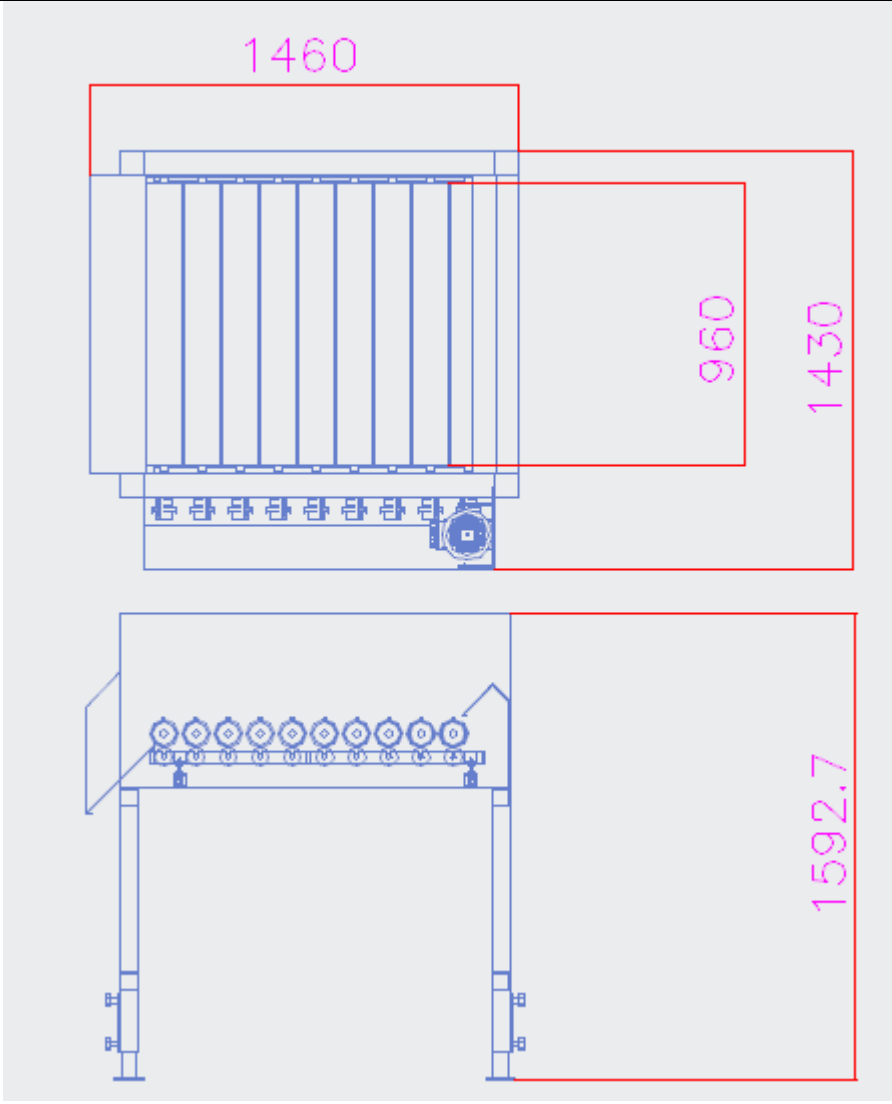

B: 10 rotating drying rollers.

C: Inside chain transmission system.

D: Strong structure.

E: Legs adjustable in height and inclination.

TECHNICAL SPÉCIFICATIONS

DRYER SP10R	L: 1.460 mm W: 1.431mm H: 1.593 mm + legs
 The technical drawing illustrates the DRYER SP10R in two views. The top view shows a rectangular unit with a width of 1460 mm and a depth of 1430 mm. The front view shows a height of 1592.7 mm. The unit features a horizontal row of 10 rollers supported by a chain transmission system. A motor is visible on the right side of the front view. The drawing uses blue lines for the unit's structure and red lines for dimension boxes.	

- 10 drying rollers with a diameter of 120 mm.
- Capacity between 5 and 10 T/h.
- Power: 0.75 KW (very low electricity consumption)
- Chain transmission system.
- Strong, built in stainless steel.
- Adjustable legs.
- CE Marking.

At **MARTIN MAQ** we know that you take great care of your product.

We know that this requires much effort and dedication. This is why we always place all our efforts in designing and manufacturing machines that will help you process your product efficiently, giving it the best possible finish.

We build all our machines to the highest of quality standards, making maintenance very easy and extending the machine's working life.

We have, at your disposal, an after-sales technical team that will assist you with any doubts that you may have during use and will inform you about how to care for your machine and keep maintenance as low as possible.
