

**CIRCULAR ACCUMULATION HOPPER (DRY) TAC**

# M

**M**achinery manufactured in stainless steel following the best quality standards, providing the best finish and resistance.

# M

**M**ore than 80 types of machines for processing all types of vegetables such as potatoes, carrots and fruit, unique design. Do not settle for mere copies.

# A

**A**adjustable in length, width and height with numerous sizes and designs to always provide the right solution to your needs.

# Q

**Q**uality, design and efficiency in all our machines to extend their working life and make your work as easy as possible.

The **Martin Maq Circular Hoppers** are designed to accumulate large amounts of dry product, so it can then be redirected to the line, for example to feed the weighing machines.

There are various sizes (height and diameter), and is mainly used for potatoes or carrots, etc.

Placed in the middle of a line, it can act as an accumulation point that will not damage the product.

It has a highly resistant exit conveyor to carry the product easily.

Maintenance is very low and repairs rare.

## IMPORTANT PARTS OF THE MACHINE

**A:** Stainless steel hopper.

**B:** Steel cable. Depending on the length of the conveyors, this will be supported by a stainless steel structure or will be made of highly resistant steel.

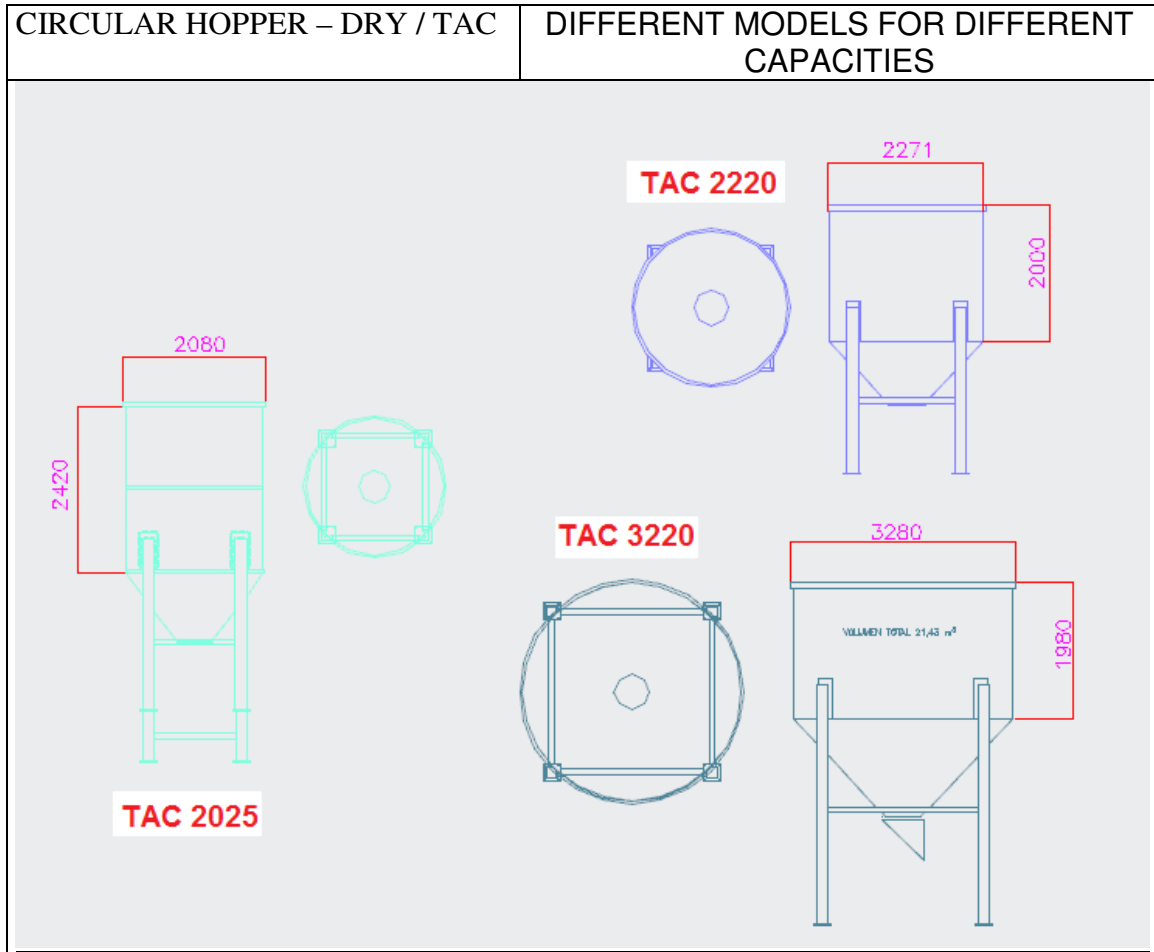

**C:** Rubber conveyor to carry the product. Available in 2, 3, 4 and 5 m length and 600 mm wide.

**D:** Adjustable legs and made to measure.

**E:** Zig-Zag system to fill the hopper. No damage to the product.

**F:** Access and inspection platforms (optional)

## TECHNICAL SPECIFICATIONS

- Stainless steel hopper.
- Steel cable. Depending on the length of the conveyors, this will be supported by a stainless steel structure or will be made of highly resistant steel.
- Rubber conveyor to carry the product. Available in 2, 3, 4 and 5 m length and 600 mm wide.
- Adjustable legs and made to measure.
- Zig-Zag system to fill the hopper. No damage to the product.
- Access and inspection platforms (optional)

At **MARTIN MAQ** we know that you take great care of your product.

We know that this requires much effort and dedication. This is why we always place all our efforts in designing and manufacturing machines that will help you process your product efficiently, giving it the best possible finish.

We build all our machines to the highest of quality standards, making maintenance very easy and extending the machine's working life.

We have, at your disposal, an after-sales technical team that will assist you with any doubts that you may have during use and will inform you about how to care for your machine and keep maintenance as low as possible.
