

WASHING TUNNEL TLP 2290

M

Machinery manufactured in stainless steel following the best quality standards, providing the best finish and resistance.

M

More than 80 types of machines for processing all types of vegetables such as potatoes, carrots and fruit, unique design. Do not settle for mere copies.

A

Aadjustable in length, width and height with numerous sizes and designs to always provide the right solution to your needs.

Q

Quality, design and efficiency in all our machines to extend their working life and make your work as easy as possible.

This washer for bananas is the most innovating machine in the market for washing banana bunches. This machine will eliminate all the dirt that the bunches may carry, even any small particles that could be stuck onto the skin.

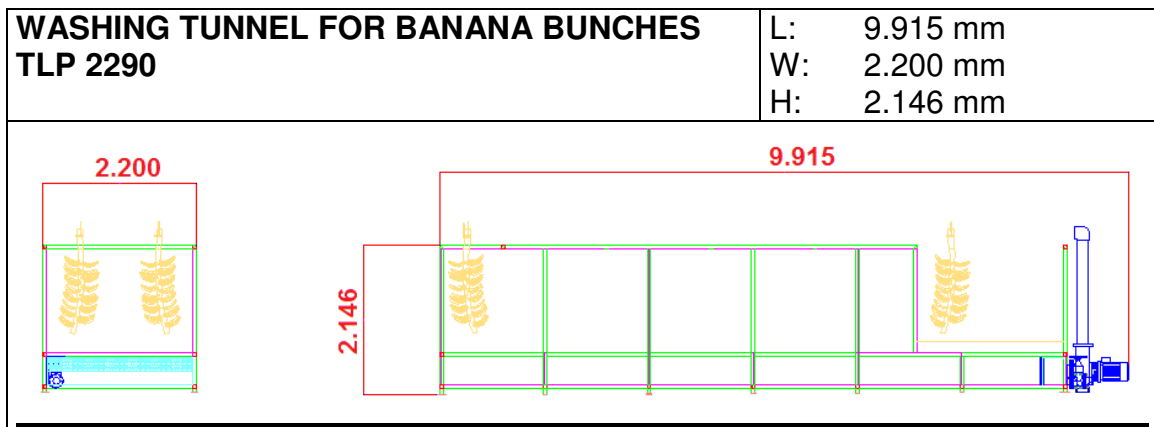

The capacity of the machine can be up to 8000 K/h. This capacity will determine the length of the conveyor (not included). The washer will first proceed with a first wash, then a rinse, dry and finally, sprays fungicide on the product, all these actions within the washer. This process reduces the use of space (one machine only) and will save time.

IMPORTANT PARTS OF THE MACHINE

- A:** Cover to avoid splashing.
 - B:** Innovating water sprays washing system.
 - C:** Water circulating system.
 - D:** Built entirely in stainless steel.
 - E:** Inside filter.
 - F:** Water pumps area.
 - G:** Water accumulation area.
-

TECHNICAL SPECIFICATIONS

- Water circulating and pumping system.
- Water pump(s) included.
- Water deposit with a capacity of 10 m3.
- Upper conveyor not included.
- Cover to avoid splashing.
- Four shower sprays to improve cleaning of the bunches.
- CE Marking
- Built entirely in stainless steel.
- Water level detector.
- Inside water filter.
- Water entry with level detector for safety.
- Low water consumption.
- Power adjusted to production and type of bunch.

At **MARTIN MAQ** we know that you take great care of your product.

We know that this requires much effort and dedication. This is why we always place all our efforts in designing and manufacturing machines that will help you process your product efficiently, giving it the best possible finish.

We build all our machines to the highest of quality standards, making maintenance very easy and extending the machine's working life.

We have, at your disposal, an after-sales technical team that will assist you with any doubts that you may have during use and will inform you about how to care for your machine and keep maintenance as low as possible.
