

**RECEIVING HOPPER TRI 650B**

# M

**M**achinery manufactured in stainless steel following the best quality standards, providing the best finish and resistance.

# M

**M**ore than 80 types of machines for processing all types of vegetables such as potatoes, carrots and fruit, unique design. Do not settle for mere copies.

# A

**A**adjustable in length, width and height with numerous sizes and designs to always provide the right solution to your needs.

# Q

**Q**uality, design and efficiency in all our machines to extend their working life and make your work as easy as possible.

The **MARTIN MAQ Receiving Hopper TRI650B** is the perfect solution to receive the product directly from trucks or tippers.

It has a capacity of 3,5 tons of product ( carrots, potatoes, turnips...)

It is indicated for processing lines with a capacity of 15 tons per hour.

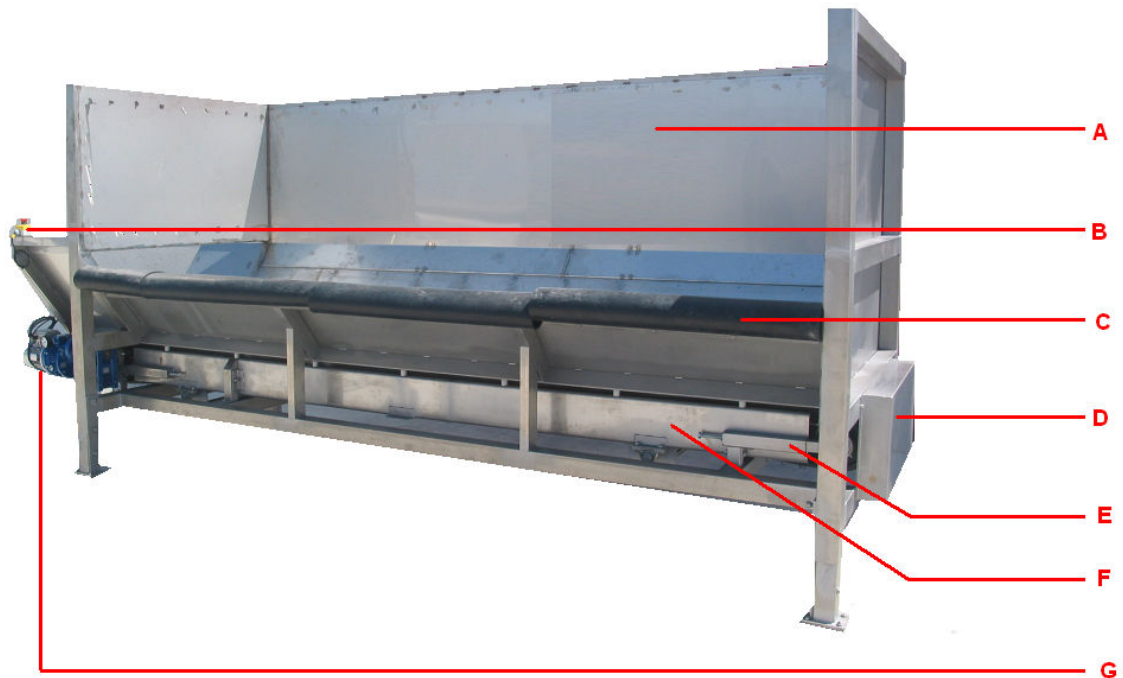

Its all made in stainless steel and the band is made of rubber. For these reasons this machine is strong and with a long life.

The motor has a speed drive controller to regulate the amount of product that leaves the hopper.

Also, it has protecting shock absorber bibs.

## IMPORTANT PARTS OF THE MACHINE

**A:** Optional sidewall (if you only feed it on one side).

**B:** Emergency stop.

**C:** Rubber protecting bibs.

**D:** Service trap.

**E:** Belt tensioners on both sides.

**F:** Rubber ribbed belt conveyor.

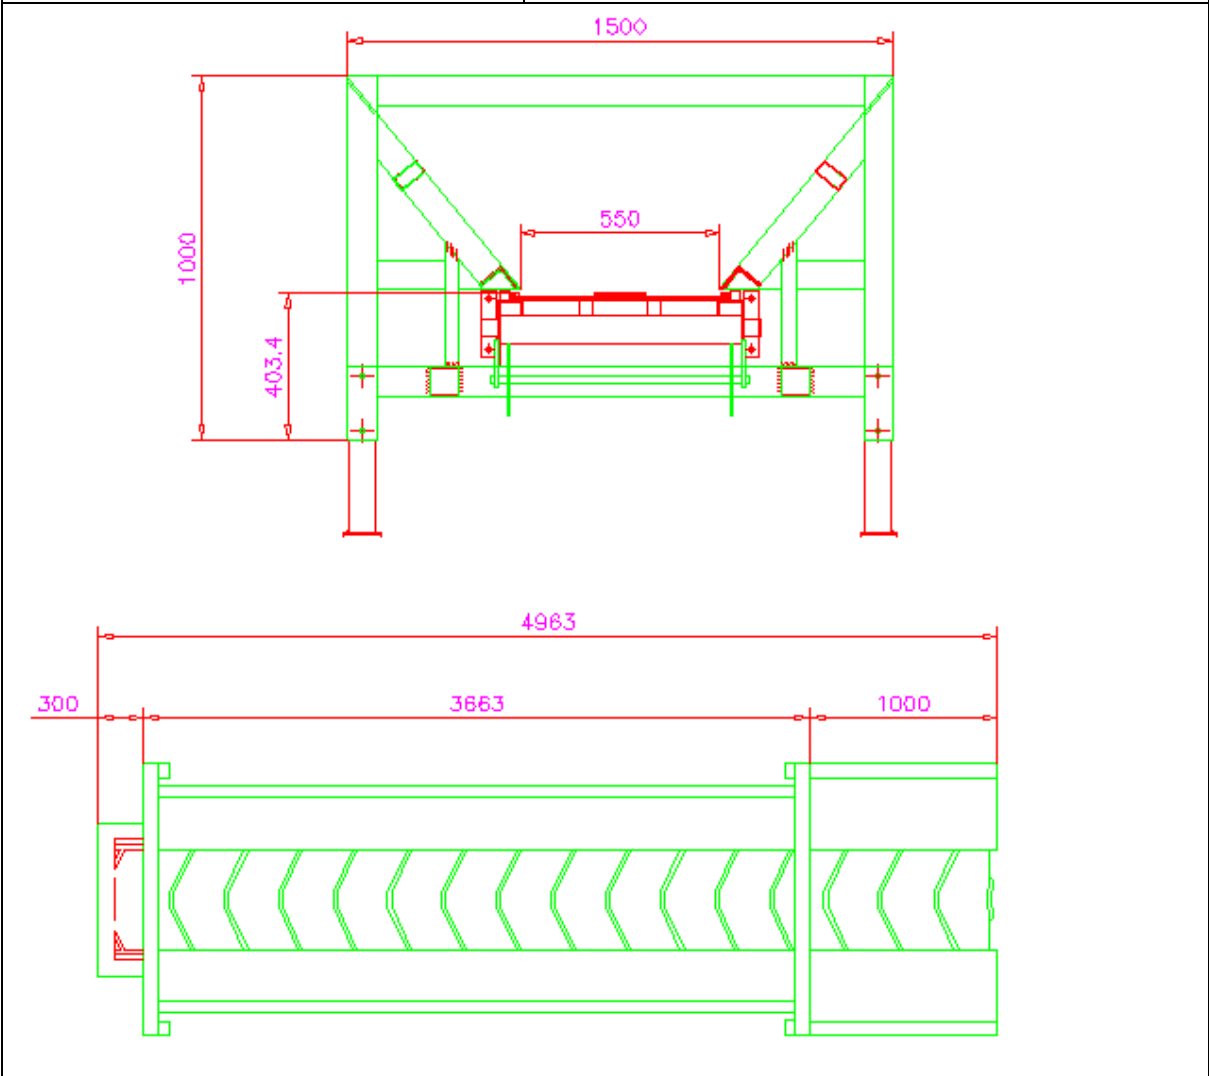

**G:** Motor with speed drive controller.

**OPCIÓN:** Adjustable legs.
