

INSPECTION TABLES MOD. TDH

M

Machinery manufactured in stainless steel following the best quality standards, providing the best finish and resistance.

M

More than 80 types of machines for processing all types of vegetables such as potatoes, carrots and fruit, unique design. Do not settle for mere copies.

A

Aadjustable in length, width and height with numerous sizes and designs to always provide the right solution to your needs.

Q

Quality, design and efficiency in all our machines to extend their working life and make your work as easy as possible.

The **Martin Maq Horizontal Conveyors Mod. TDH (Inspection tables)** are made of PVC and can be used to carry the product from one machine to another.

Adequate for potatoes, carrots, turnips, etc. All the conveyors have adjustable legs (height and inclination) and are easily adaptable to any existing line. Light and highly resistant.

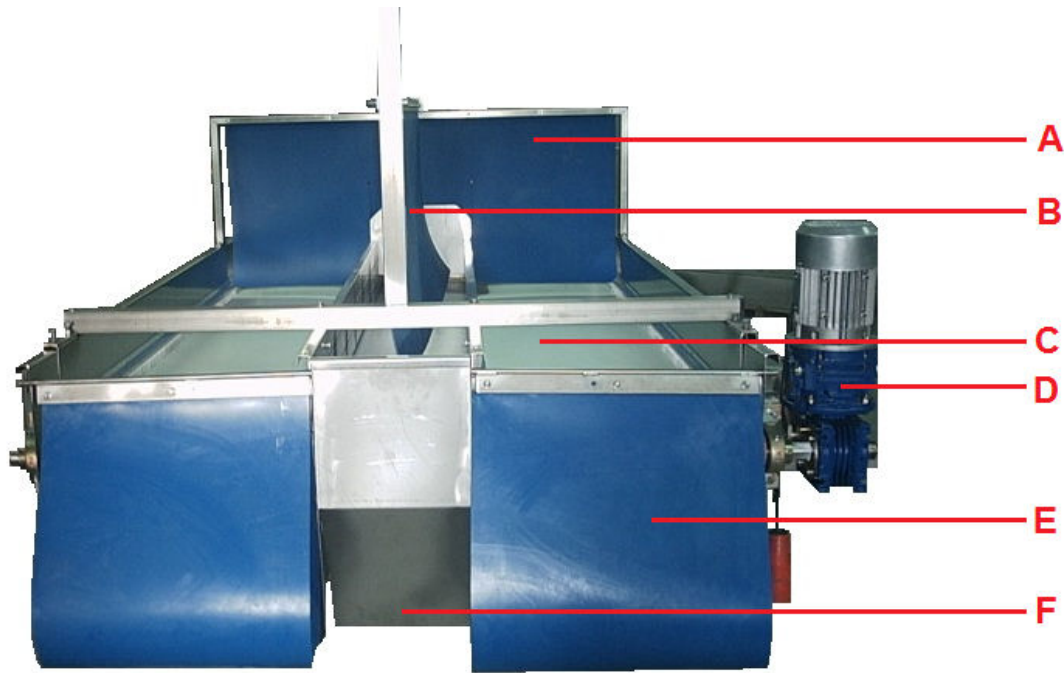

They can carry any type of product (wet). Tensors are placed at the beginning and end of the conveyors, that keep the band in place.

Different sizes and lengths. The power of the motor will be adapted to different customer needs. Lock-gates and deviations can be added.

They can be designed with waste disposal side boxes or with a central track and with whichever platforms required. The inspection tables are made to measure in height and inclination, making them suitable for use.

IMPORTANT PARTS OF THE MACHINE

A: Cover to protect the product and entry.

B: Central track in PVC to make disposing of waste easy.

C: PVC Band (height will depend on product) adequate for any type of product, wet or dry, highly resistant and long lasting specially when the product is received with mud, etc .

D: Motor (calculated for each individual case regarding power and speed required).

E: Covers to protect product.

F: Collection hopper to pick up waste from the central track.

TECHNICAL SPECIFICATIONS

HORIZONTAL CONVEYORS MOD. TDH

- Motor with power from 0,125 Kw to 2 Kw, with the possibility of incorporating motors with speed adjusters.
- Lengths: 1.2, 1.5 m, 2 m and, as from 2 m, any size, i.e. 3 m, 4m, 5m, and up to 12 m.
- Width: 0.2 m, 0.4 m, 0,6 m, 0.8 m, 1 m, 1.2 m and 1.5 m.
- Rubber ribbed band (different height of rib depending on product).
- Cleaning lock-gates.
- Stainless steel pinions.
- CE Marking.
- Adjustable legs.

OPTIONS:

- Waste disposal central track.
- Collection boxes for waste disposal.
- Motor with speed adjuster.
- Platforms.
- Lighting system.
- Cobres to protect product.

At **MARTIN MAQ** we know that you take great care of your product.

We know that this requires much effort and dedication. This is why we always place all our efforts in designing and manufacturing machines that will help you process your product efficiently, giving it the best possible finish.

We build all our machines to the highest of quality standards, making maintenance very easy and extending the machine's working life.

We have, at your disposal, an after-sales technical team that will assist you with any doubts that you may have during use and will inform you about how to care for your machine and keep maintenance as low as possible.
