

VIBRATING SOIL REMOVER VET 815

M

Machinery manufactured in stainless steel following the best quality standards, providing the best finish and resistance.

M

More than 80 types of machines for processing all types of vegetables such as potatoes, carrots and fruit, unique design. Do not settle for mere copies.

A

Aadjustable in length, width and height with numerous sizes and designs to always provide the right solution to your needs.

Q

Quality, design and efficiency in all our machines to extend their working life and make your work as easy as possible.

This **MARTIN MAQ Vibrating SOIL Remover VET 815** (earth and small stones disposal system) is designed to be first in line to eliminate, by vibration, earth, small stones, leaves, etc.
Capacity: 10 T/h.

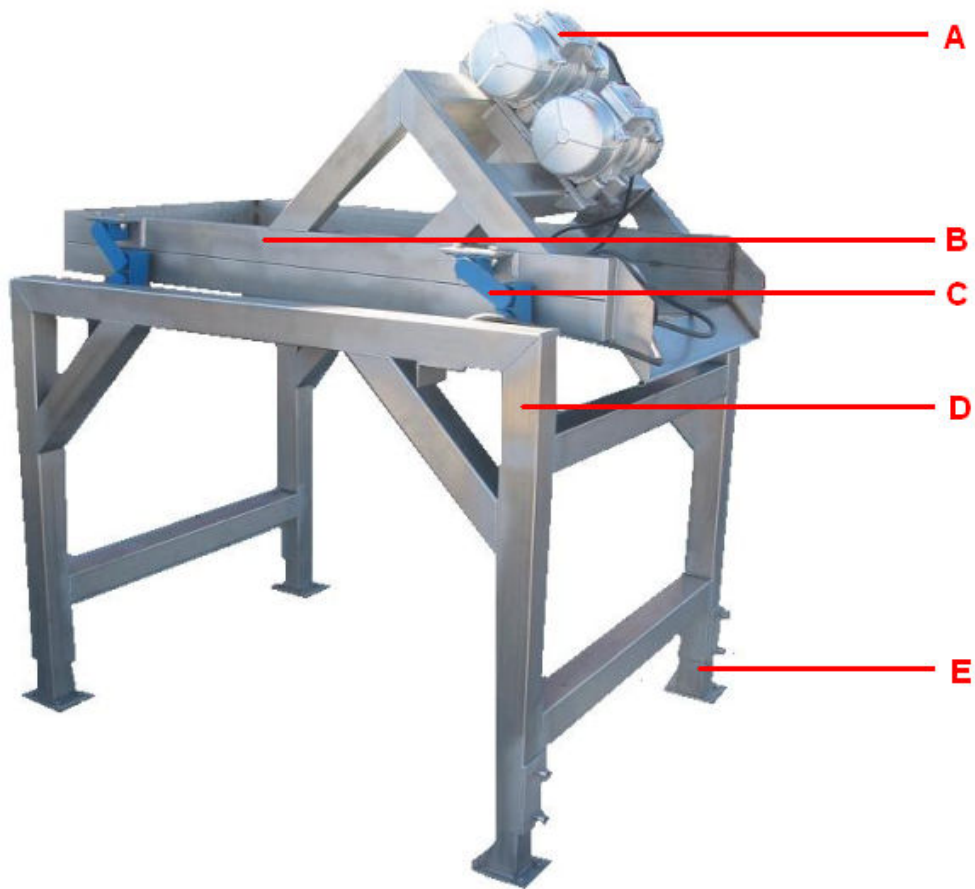

Built entirely in stainless steel, highly resistant, with very low maintenance.

To avoid vibration to the floor or the platforms, it has an anti-vibration system adjusted between the main tray and the structure.

Depending on the product, the machine will have protection bands (entry and exit) or even a cover to avoid excessive dust, falling of leaves, etc.

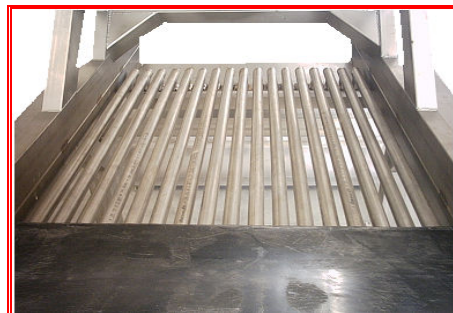

IMPORTANT PARTS OF THE MACHINE

A: System that provides the adequate vibration to the earth disposal tray.

B: Stainless steel tray.

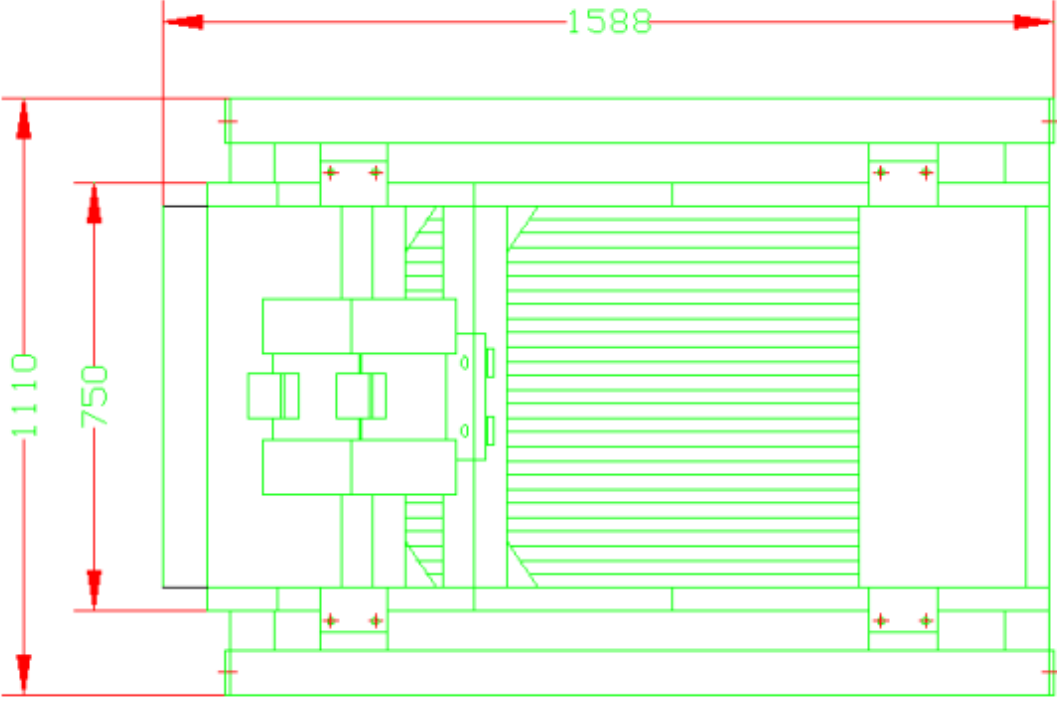

C: 4 anti-vibration systems that absorb most of the vibration from the tray.

D: Strong and resistant stainless steel structure. (optional)

E: Adjustable height legs.
