

MARTIN MAQ®

MAQUINARIA HORTICOLA
VEGETABLE HANDLING SYSTEMS

BOX TIPPER VOLBOX 1412

M

Machinery manufactured in stainless steel following the best quality standards, providing the best finish and resistance.

M

More than 80 types of machines for processing all types of vegetables such as potatoes, carrots and fruit, unique design. Do not settle for mere copies.

A

Aadjustable in length, width and height with numerous sizes and designs to always provide the right solution to your needs.

Q

Quality, design and efficiency in all our machines to extend their working life and make your work as easy as possible.

This **MARTIN MAQ** tipper is designed to tip boxes with a width of up to 1.400 mm. The maximum amount of product it can tip is 2.000 Kg.

All parts of the machine in contact with the product are stainless steel. The main frame is made of high resistance carbon steel.

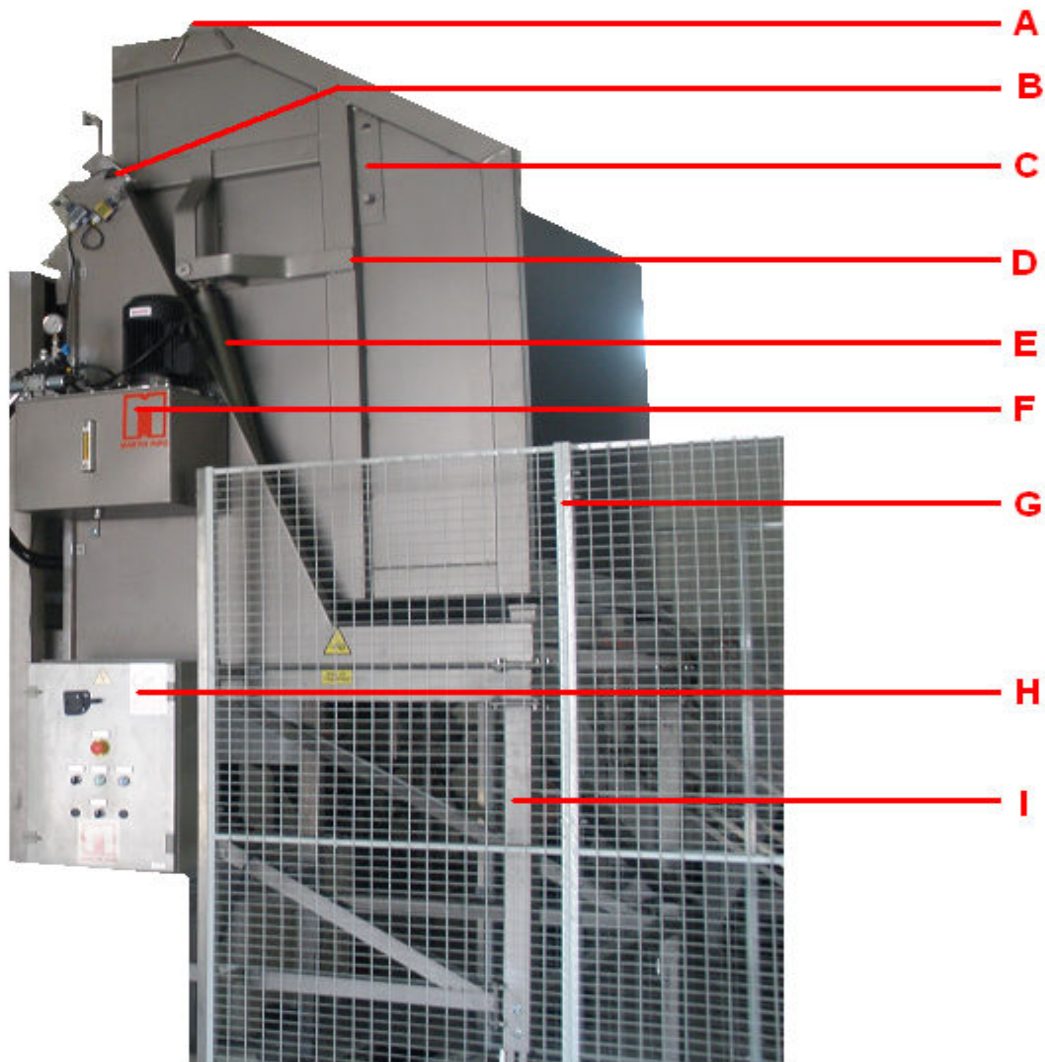

Hydraulics, electric board and all elements necessary for its functioning are incorporated.

The tipper has protection barriers and a remote control On/off system, following the appropriate safety rules and regulations.

The necessary supports can be manufactured so as to be able to place the tipper at the correct height.

IMPORTANT PARTS OF THE MACHINE

- A:** Supports to hold the tipper when being transported.
- B:** Limit detectors and photocells for continuous functioning (depending on need).
- C:** Support bar with various heights to adapt each different box.
- D:** Very strong and resistant structure made of carbon steel. Inside of the tipper made of stainless steel.
- E:** Hydraulic cylinders capable of tipping 2,000 kg of product.
- F:** Hydraulic control unit that contains the oil pressure to move cylinders.
- G:** Mesh side shields to prevent danger during tipping.
- H:** Electric board.
- I:** Elevation support made to measure (optional).

TECHNICAL SPECIFICATIONS:

BOX TIPPER VOLBOX 1412	Length: 2.000 mm Width: 1.840 mm Height: 2.205 mm

- Very strong and resistant structure made of carbon steel. Inside of the tipper made of stainless steel.
- Specially designed to tip boxes of up to 1.400 mm wide and 1.240 mm in length.
- Support bar with various heights to adapt each different box.
- Total tipping in 4 minutes. Maximum capacity for feeding the tipper is 15 t/h
- Hydraulic and electric boards included.
- Mesh side shields comply all safety rules and regulations.
- Limit detectors, photocells for product detection, any necessary automatism for manual or automatic functioning can be supplied (optional)
- Power: 0.9 Kw.
- Adjustable height and inclination.
- CE Marking
- Adequate for carrots, potatoes, parsnips, onions, turnips

At **MARTIN MAQ** we know that you take great care of your product.

We know that this requires much effort and dedication. This is why we always place all our efforts in designing and manufacturing machines that will help you process your product efficiently, giving it the best possible finish.

We build all our machines to the highest of quality standards, making maintenance very easy and extending the machine's working life.

We have, at your disposal, an after-sales technical team that will assist you with any doubts that you may have during use and will inform you about how to care for your machine and keep maintenance as low as possible.
