

COR 140

COR 661

C2A30 // C2A50

CH 630 // CH 650

RH 50 // RH 70

Our leaf / root cutters series COR, C2A, CH and RH are suitable machines to get a conditioned product for sale in the market, meeting the most demanding customer needs.

They are built in stainless steel with high precision cutting blades. Depending on the model, they incorporate pressure showers inside to wash the product.

All machines in the series are adjustable both in speed and length of cut.

We have leaf, root and product cutters for leeks, chives, roots (endive, parsnip ...), etc. of different sizes, lengths and number of blades depending on your application and customer needs.

As a complement to this system we offer a wide range of options such as water filtration and recycling systems, root cutting system, conveyor belts, and a long etc.

General Characteristics

- Robust structure in stainless steel.
- Stainless steel blades.
- Specially designed to process leeks, chives, carrots, parsnips, endives, etc.
- Cut leaves and / or roots with precision.
- Direct motors on the blades.
- Inlet conveyor with individual product holders of different types depending on the type of product.
- Adjustable height.
- Reduced water consumption.
- Protection systems to avoid risks to operators.
- Systems and automation necessary for both manual and automatic operation.
- CE marked.

Características técnicas

	Product	Maximum load (units / hour)	Cuts	Shower	Measurements L, W, H(*)	Power
COR 140	Carrot, parsnip, endive	3.000 ud/h	2	No	5.245x795x935mm	2,21 KW
COR 661	Carrot, parsnip, endive	9.000 ud/h	1	Si	6.345x930x1.250 mm	2,35 KW
C2A 30	Carrot, parsnip, endive	2.000 ud/h	2	Si	3.500x1.600x2.100 mm	0,92 KW
C2A 50	Carrot, parsnip, endive	3.000 ud/h	2	Si	5.500x1.600x2.100 mm	0,92 KW
CH 630	Leek, chives, endive	4.000 ud/h	1	Si	3.385x850x1.200 mm	6,60 KW
CH 650	Leek, chives, endive	8.000 ud/h	1	Si	5.500x850x1.200 mm	0,60 KW
CH 825	Leek, chives, endive	3.000 ud/h	1	No	2.500x800x1.200 mm	2,00 KW
RH 50	Leek, chives, endive	3.000 ud/h	2	Si	5000x790x1240 mm	1,10 KW
RH 70	Leek, chives, endive	5.000 ud/h	2	Si	7000x790x1240 mm	1,10 KW
